About dataLearning

dataLearning is a consulting firm specialising in data in the financial, insurance and audit sectors. We work alongside our clients to support them in their digital transformation:

– By providing them with the necessary resources to strengthen their teams and ensure the success of their project ;

- By organizing professional training to improve their digital skills ;

- By entrusting the exploitation of their data and algorithms to our eco-responsible platform to free them from tedious tasks and benefit from the help of specialists,

Founded in 2014 in London, dataLearning is now present in the United Kingdom and France and is positioned on complex and exciting projects.

Led by a team of engineers from Polytechnique X, MINES ParisTech and Telecom ParisTech, dataLearning is led by Christophe Le Lannou. In full phase of growth, we seek to expand our teams to participate in varied, ambitious and rewarding missions.

By joining dataLearning, you will benefit from stimulating career opportunities while having the opportunity to increase your areas of expertise.
